Election/Restrictions

In response to the Examiner's restriction requirement, Applicants hereby traverse the Examiner's arguments that Species I-VI are patentably distinct from one another. The embodiments recited in Claims 8-13, 21-26, and 37-42 are each examples of absorbent articles that include the fastening system of the invention. Figs. 8-13, submitted herewith, illustrate the fastening system of the invention in combination with each of the embodiments recited in Claims 8-13, 21-26, and 37-42. As can be seen in the drawings, the fastening system itself remains substantially the same in each of the embodiments shown in Figs. 8-13. By traversing the Examiner's restriction requirement, Applicants respectfully request the each of Claims 1-42 be examined.

Amendment to the Specification

Applicants have amended the title of the invention to be more descriptive of the invention. Applicants have amended the brief description of the drawings to include brief descriptions of each of the new Figs. 8-13, submitted herewith. Applicants have amended the detailed description of the presently preferred embodiments to include references to each of the new Figs. 8-13, submitted herewith. A marked-up version of each of the amended sections of the specification is included at the end of this document. No new matter has been added by this amendment.
